

Easy Read - Blog by Dr Rachel Ann Jones

We've helped people with a learning disability in Wales for 6 years. We want to do more.

We are starting a new group to share ideas to help people with a learning disability.

Anyone can join the group for free. This includes:

- People with a learning disability
- Their families, carers
- Professional care workers

From 2019 to 2025, we made care safer and better. But there are still problems that need fixing.

We want:

- Better data
- More health checks
- Shorter hospital stays
- Kinder care

The group helps people work together on health issues. It's a chance to improve things.

Join us to be involved in our work by sharing your thoughts. Let's make Wales better.

Sign up to be a part of a community where everyone is valued. [Find out more.](#)
